

Dear Friend,

Thank you for taking a few moments to learn more about Rosecrance Behavioral Health.

For more than a century, our mission has remained remarkably simple: to provide hope, help, and lasting recovery to children, adults, and families facing mental health and substance use challenges. While the needs of our communities continue to evolve, our commitment to compassionate, high-quality care has never wavered.

Today, more than 70,000 individuals each year turn to Rosecrance through our network of locations across Illinois, Iowa, Wisconsin, and Indiana. Behind every number is a person, a family, and a story of resilience. Every day, I have the privilege of hearing from people whose lives have been transformed because someone cared enough to help them take the next step.

Enclosed is a brief overview of our organization, our impact, and the direction we are headed. I have also included program details about Rosecrance Therapies and the Rosecrance Griffin Williamson Campus to highlight these offerings. I hope it provides a sense of who we are and why this work matters so deeply. Whether you are exploring a partnership, considering an investment in our mission, or simply learning more about our organization, I appreciate your interest.

If you would like to continue the conversation or visit one of our programs, I would welcome the opportunity to connect personally.

Thank you for your interest in Rosecrance and for believing that recovery is possible.

Dave Gomel, Ph.D.
Chief Executive Officer

Rosecrance Behavioral Health

A Legacy of Lasting Hope

rosecrance®
BEHAVIORAL HEALTH

The Rosecrance Care Continuum

rosecrance®
Residential

Rosecrance residential care campuses are designed to support a fully immersive, holistic approach to treatment. Our physician-led clinical teams provide outcomes-based care for those with complex behavioral health challenges, including psychiatric services as appropriate.

Our nationally recognized, evidence-based addiction treatment is tailored as needed to serve men, women, women with children, young adults, older adults, first responders, veterans, those re-engaging their recovery, and those who have a dual diagnosis with mental health conditions. Our leading adolescent program serves teens with mental health and substance use disorders.

rosecrance®
Therapies

Our most personal level of outpatient care for children, teens, young adults, and adults, treating those with anxiety, depression, mood disorders, grief, trauma, and substance use disorders. The most common path to start is one-on-one therapy with a Rosecrance therapist who will then connect with you to build the right team of support for your journey toward a more fulfilling life.

Services include private counseling, couples counseling, family counseling, specialty group therapy for mental health and substance use disorders, psychiatric services, Rosecrance Virtual services, TMS therapy, and other specialized behavioral health therapies. Rosecrance Therapies accepts most major insurance.

rosecrance®
Living

For people in the early stages of their recovery journey who may not feel ready to be totally immersed back into everyday life. Rosecrance Living provides structured residential options for continued support. Clients may work or study while residing in a sober living home.

rosecrance®
Community

Outpatient behavioral health care and specialized wellness services for the community.

Includes individual and family counseling, psychiatric services, crisis services, prevention services, veteran support, Intensive outpatient programs that provide holistic treatment, walk-in and call-in assessments, and intensive community-based services. Rosecrance Community services take place at locations certified for Medicaid and government-sponsored insurance and grants, and in the community.

rosecrance®
Learning

Includes all kinds of resources, programs and education for individuals, families, professionals, and the community to gain understanding and expertise in order to create healthier communities.

Programs focus on supporting and educating both our clients and their loved ones, so that everyone has the tools they need to move forward and rebuild their lives, together. Our Parent Café support group and On Your Radar podcast are among many resources that support families.

Activities and community-building are also available from peers and program alumni to foster lasting recovery and wellness.

rosecrance®
Foundation

Raises charitable funding to strengthen programs, provide a range of community services, and expand access to care for uninsured individuals, people with Medicaid, and the community's at-risk populations. The Foundation also builds awareness of all Rosecrance services, as well as our mission.

- Interventions

COMPREHENSIVE TREATMENT FOR COMPLEX NEEDS.

Backed by decades of experience and commitment, Rosecrance is a recognized leader and trusted resource for mental health and substance use treatment. Our multidisciplinary team and outcomes-based treatment approach help our clients gain real, core insights into their illness, develop new skills and habits, and discover that joy and confidence are possible.

Our mission is the same today as it was in 1916—to change and even save lives by giving our clients reasons for hope and road maps for happier, more fulfilling futures. We do that by creating hopeful, supportive environments that foster healing, and by treating each and every person as the whole, complex human being they are.

Our comprehensive continuum of care, unmatched by most other programs, is designed to serve all your needs, comfort levels, and lifestyles.

THERAPIES

Rosecrance's most personalized level of care

Headquartered in Chicago, Rosecrance Therapies provides comprehensive support for mental health, substance use, and eating disorders. Our experienced therapists, psychiatrists, and medical providers deliver individual counseling, group therapy, and specialized behavioral health treatments tailored to each person's needs.

We also offer higher levels of care, including detox, residential services, and recovery home living, ensuring a full continuum of support.

Rosecrance Therapies accepts most major insurance plans. Behavioral healthcare can help improve quality of life, manage stress and anxiety, and develop strategies to manage other life challenges. Services are available for children, teens, adults, and families.

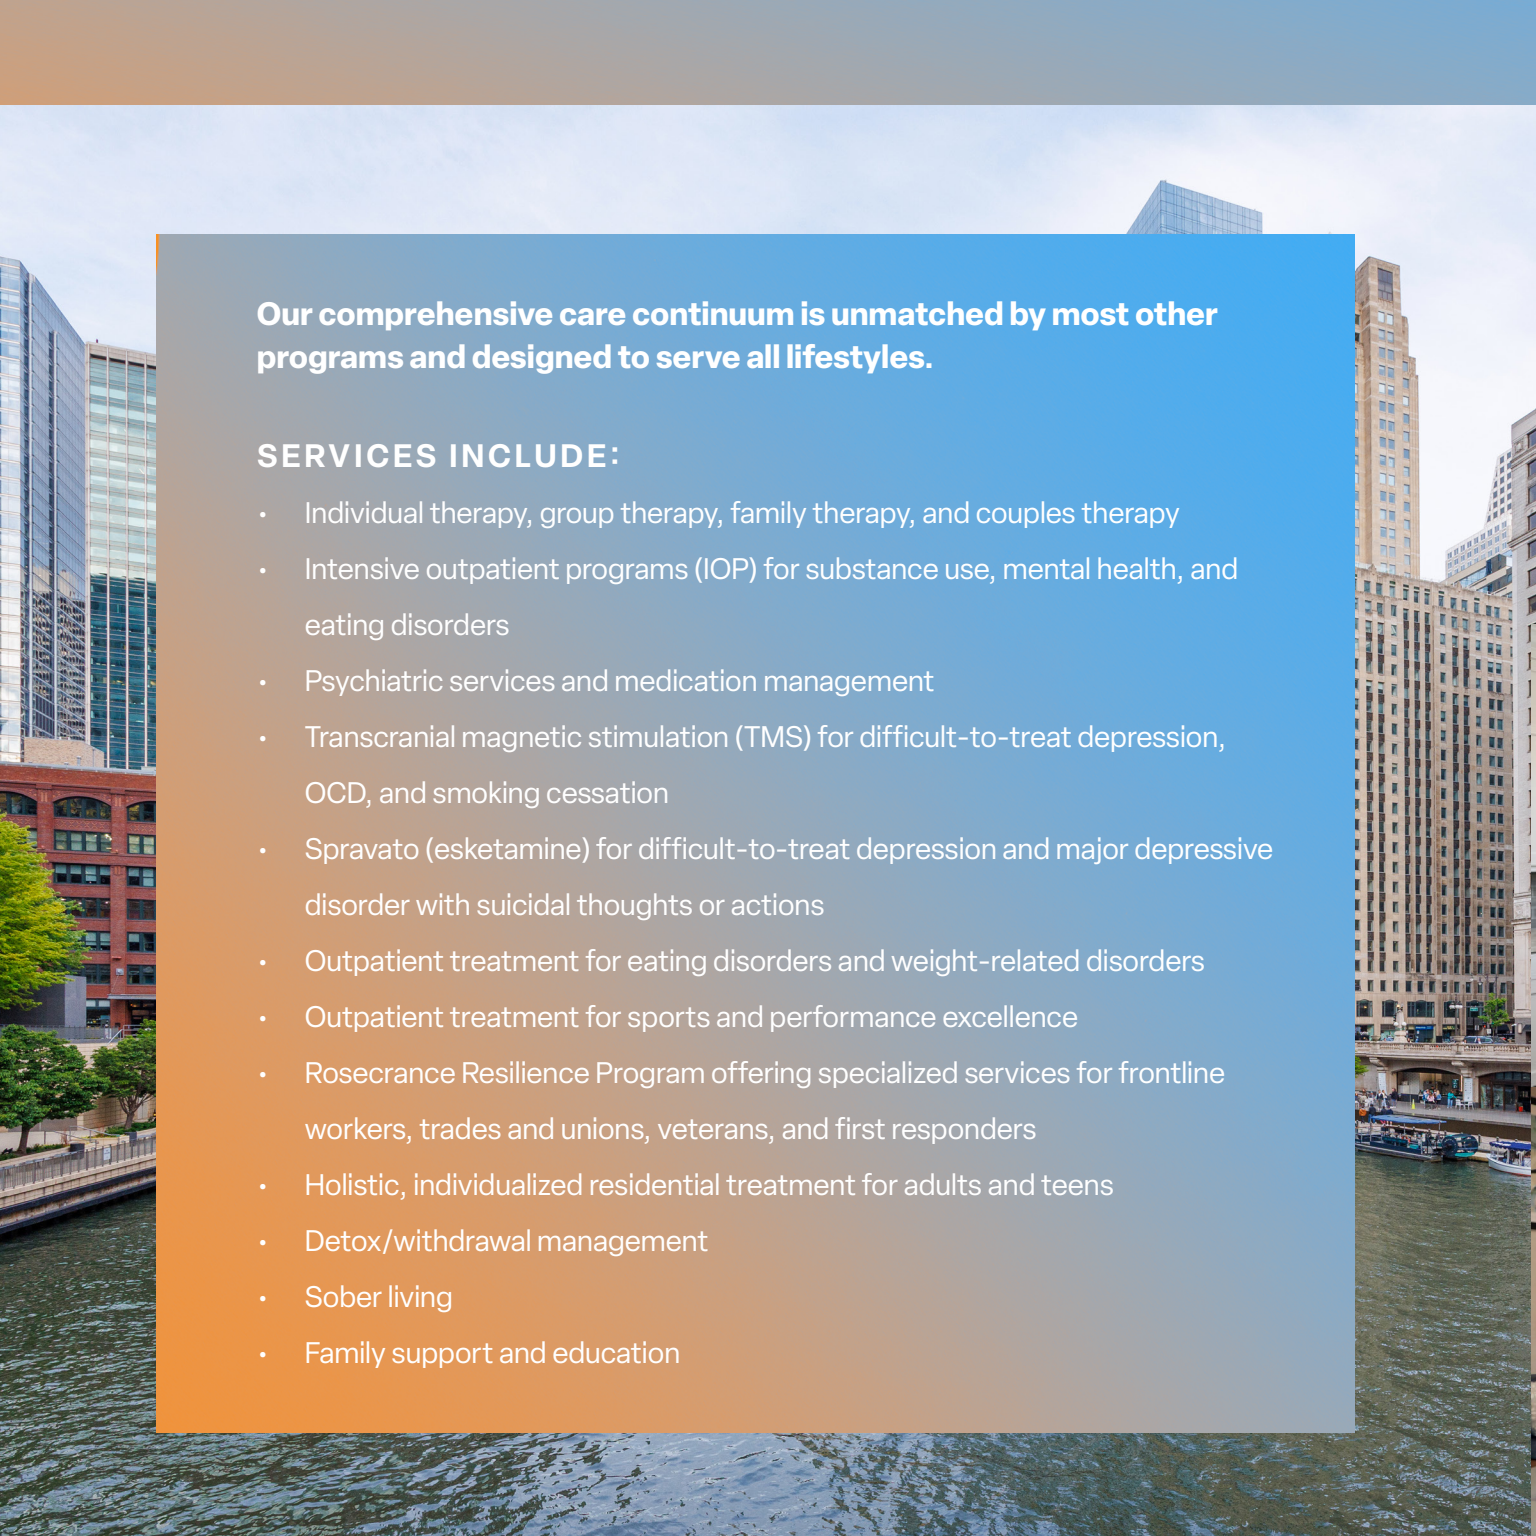

Why choose Rosecrance Therapies?

With a robust presence in Chicago and throughout the Midwest, Rosecrance Therapies offers accredited and evidence-based programs. Our full care continuum includes outpatient, intensive daily and weekly group programs, and residential services. It's an all-encompassing experience focused on the whole person and the unique relationships they have with their loved ones, their peers, themselves, and their wellness journey.

We have a successful record of treating individuals with complex behavioral health challenges. Treatment outcomes at Rosecrance are assessed through research-based, objective tools. Comprehensive analysis of outcomes surveys confirms that our evidence-based approach to treatment positively changes clients' attitudes, behaviors, and lifestyles. Outcome measures are also monitored during a client's treatment journey to allow clinicians to modify plans as needed.

Our comprehensive care continuum is unmatched by most other programs and designed to serve all lifestyles.

SERVICES INCLUDE:

- Individual therapy, group therapy, family therapy, and couples therapy
- Intensive outpatient programs (IOP) for substance use, mental health, and eating disorders
- Psychiatric services and medication management
- Transcranial magnetic stimulation (TMS) for difficult-to-treat depression, OCD, and smoking cessation
- Spravato (esketamine) for difficult-to-treat depression and major depressive disorder with suicidal thoughts or actions
- Outpatient treatment for eating disorders and weight-related disorders
- Outpatient treatment for sports and performance excellence
- Rosecrance Resilience Program offering specialized services for frontline workers, trades and unions, veterans, and first responders
- Holistic, individualized residential treatment for adults and teens
- Detox/withdrawal management
- Sober living
- Family support and education

SERVING THOSE WHO SERVE THE COMMUNITY AND THEIR FAMILIES

The Rosecrance Resilience Program serves individuals and families in high-risk, high-stress professions, which may spark grief, trauma, anxiety, or depression that can fuel substance use and mental health challenges.

This treatment program addresses behavioral health concerns while offering coping skills and building resiliency. It incorporates occupational factors into the treatment process and addresses complex biopsychosocial issues that are unique to the culture of safety-sensitive professions such as police, fire, emergency services, construction workers, healthcare professionals, and veterans.

SOBER LIVING FOR LONGER-TERM SUPPORT

Sober living and outpatient services at Rosecrance Lakeview are housed in a beautifully constructed building in Chicago's vibrant, historic Lakeview neighborhood.

Our recovery home residence caters to young adults and adults and offers the structure and accountability that is key during early recovery. The on-site outpatient counseling center provides treatment services to the community and conveniently for recovery home residents.

INSURANCE & FINANCIAL SUPPORT

Rosecrance is in network with most major commercial insurance and our team will help you understand costs, verify coverage, and find affordable options.

We work closely with benefits managers and EAPs and understand the many ways individuals and their families may require care.

We can also tailor treatment needs to be flexible to the work environment, considering shift work and family priorities so individuals can focus on healing.

ROSECRANCE GRIFFIN WILLIAMSON CAMPUS

Located on 50 scenic acres in Rockford, Illinois, the Rosecrance Griffin Williamson Campus supports a fully immersive, holistic approach to treatment for adults and teens living with substance use, mental health, and co-occurring disorders.

Evidenced-based therapies include group, family, and individual therapy; on-site psychiatric services and medication management; integrated therapeutic recreation; 12-Step meetings and spirituality in recovery; family education and support; and alumni relations, including planned sober activities.

The campus is conveniently located north and west of Chicago O'Hare International Airport.

Clients also have access to medically monitored detox care. Care for withdrawal management will be based on individual needs on a 24/7 basis.

ROSECRANCE THERAPIES OUTPATIENT LOCATIONS

Rosecrance Therapies locations offer counseling and addiction treatment with skilled, licensed therapists, and support through specialized behavioral health therapies.

These outpatient centers are designed with comfort and healing at the forefront throughout Illinois, Indiana, and Wisconsin.

Treatment can be delivered in person and virtually, with options that fit all schedules and lifestyles.
